This document has been prepared for the titled project or named part thereof and should not be relied upon or used for any other project without an independent check being carried out as to its suitability and prior written consent of Environmental Systems. Environmental Systems accepts no responsibility or liability for the consequence of this document being used for a purpose other than the purposes for which it was commissioned.

# Table of Contents

1. Project Overview.....	1
2. The Proposed Project.....	2
A. Project Background, Purpose and Rationale.....	2
B. Proposed Project Description.....	2
C. Status of Any Other Applications Associated with the Proposed Project.....	3
3. Expertise and Studies Carried Out.....	4
A. Description of Studies.....	4
B. Proposed Project Inputs and Outputs in Terms of Resources.....	5
C. Economic Impacts.....	5
4. Approach and Methodology.....	6
5. Study Limits - Physical, Biological and Socio-cultural Environments.....	7
6. Existing Environmental Conditions.....	11
A. Physical Environment.....	11
i. Site Topography and Drainage.....	11
ii. Watersheds and Flood Prone Areas.....	14
iii. Hydrologic and Hydraulic Analysis of Ghut Extension and Stabilisation.....	15
iv. Sediment Load and Transport Characteristics.....	16
v. Hazard and Vulnerability Assessment.....	17
vi. Geotechnical Analysis of the Study Area.....	20
vii. Visual Quality and Recreational Areas.....	21
B. Biological Environment.....	21
i. Climate and Meteorology.....	21
ii. Terrestrial Habitat.....	22
i. Littoral Habitats.....	26
i. Marine Habitats.....	29
ii. Endangered, Threatened and Vulnerable Species.....	33
iii. Beach Nourishment - Sand Grain Composition Analysis.....	33
iv. Natural Vegetation in Relation to Historic Coastal Processes within North Sound.....	36
v. Water Quality.....	37
C. Socio-economic Environment.....	41
i. Land Use – Public Beach Access & Recreational Opportunities.....	41
ii. Demands and Supply on Existing Infrastructure.....	41
iv. Site Access and Transportation.....	42
v. Tourism and Other Economic Activities.....	42
vi. Human Health and Safety.....	42
7. Prediction of Potential Impacts.....	43
A. Seismic, Geological and Hydrometeorological Hazards.....	45
i. Geologic and Seismic Hazards.....	45
ii. Hydrometeorological Hazards.....	47
B. Coastal Processes and Sediment Loads.....	47
i. Shoreline Erosion.....	47
ii. Flood Prone Areas and Ghut Flow.....	48
iii. Sediment Loads.....	48

iv. Drainage Issues.....	49
v. Building Setbacks.....	49
C. Ecological Impacts .....	50
i. Terrestrial and Littoral Habitats .....	50
ii. Marine Habitats.....	51
iii. Water Quality .....	52
iv. Beach Nourishment.....	53
v. Sewage Treatment .....	56
vi. Residues and Emissions.....	56
D. Site Access and Transportation .....	57
8. Mitigation Plans/Measures.....	58
A. Erosion and Sedimentation Control Plan .....	58
B. Drainage Plan.....	60
C. Pollution Abatement Technology to be Applied .....	61
D. Water Quality Monitoring Programme .....	61
E. Emission Control Mechanisms .....	61
F. Health and Safety Plan .....	62
G. Emergency & Contingency Plans - Construction and Operation Phases.....	63
H. Landscape/Habitat Preservation Scheme .....	64
I. Environmental Management and Monitoring Plan.....	67
9. Alternatives to the Proposed Project .....	68
A. Alternative Access to the Site in the Event of an Emergency .....	68
B. Alternative Drainage Plan.....	68
C. Alternative Layout of the Land Subdivision Plan.....	70
D. Alternative Location for the Generator House.....	70
E. Alternative Location of the BBQ Pavilion .....	71
10. References .....	72
11. Appendices.....	74
